Ultipa, Inc. Announces Key Updates to Its Global Partnership Program

California-based Ultipa announces key updates to its global partnership program, signs up multiple partners globally.

PLEASANTON, CA, USA, August 21, 2024 /EINPresswire.com/ -- Ultipa, Inc., a leading provider of high-performance graph computing technology, is pleased to announce significant updates to its Global Partnership Program. This initiative represents a pivotal step in Ultipa's ongoing mission to expand its global reach through collaboration with industry-leading organizations across various regions.

Global partnership program and partners

The initial group of partners joining the Ultipa Partnership Program includes:
- Code Infinity, in Africa
- Edersoft, in the Middle East
- Enablit, in Europe
- Great Usutu Technologies, in Africa
- Peers Consultancy & Technology, in North America and LATAM
- Stratic, in the Middle East
- plus regional partners working with Ultipa in stealth mode and serving key customers globally.

These strategic alliances underscore Ultipa's dedication to driving innovation and enhancing its market presence through collaborative efforts with top-tier companies worldwide.

Yuri Simione, VP of Partnership and Alliances at Ultipa, emphasized the significance of this program, stating, "For us, partnership is not about unidirectional collaboration; it's about fostering true, mutual growth. We are also enabling collaboration among our partners to deliver solutions, such as a litigation support system developed in the U.S. for the UAE, or hypersegmentation marketing services deployed from Brazil to Singapore. Our partners appreciate this collaborative approach."

Monica Liu, COO of Ultipa, added, "Our commitment to growth and success is unwavering, and selecting strategic partners who share our vision is a key component of that commitment. As we advance, we are also focused on securing investors for our upcoming Round-B Financing to ensure we have the necessary resources to continue driving innovation and expansion."
