

Dr. Vijay Naik Breaks Down Survivors Exam Prep's 6, 8 and 12 Week Course Offerings

Dr. Vijay Naik Breaks Down Survivors Exam Prep's 6, 8 and 12 Week Course Offerings

LOS ANGELES, CA, UNITED STATES, August 20, 2024 /EINPresswire.com/ -- Navigating the rigorous demands of medical licensing exams can be daunting, but with [Survivors Exam Prep](#), students are offered a comprehensive approach to mastering the material. Spearheaded by the esteemed Dr. Vijay Naik, the program offers flexible and thorough course options tailored to various stages of medical training, including Step 1, Step 2 CK, Step 3, MCCQE1, and PLAB exams. Each course is meticulously designed to ensure that students not only understand foundational concepts but also excel at applying this knowledge in clinical settings.

Dr. Vijay Naik Survivors Exam Prep

Survivors Exam Prep's courses cater to diverse learning needs with three distinct offerings—a 6-week, a 12-week, and an 18-week online program. The 6-week program, priced at \$5,350, immerses students in a dynamic learning environment with interactive live lectures conducted every day of the week. Beyond the engaging live sessions, students benefit from 375 minutes focused on enhancing test-taking skills and 21 hours of topic-based live lectures weekly. Additionally, the program includes six months of audio pharmacology lectures, printed and digital course textbooks, and personalized learning through six one-on-one tutoring sessions. To accommodate unforeseen circumstances, make-up lectures are also available, ensuring that no student falls behind.

The 12-week program, available at \$8,600, builds upon the 6-week curriculum by doubling the duration while maintaining the intensity of interactive, daily lectures. It provides students with increased access to one-on-one tutoring, with twenty sessions included in the package. This extended time frame allows students to deepen their understanding of critical concepts and refine their test-taking strategies further.

For those seeking an even more immersive experience, the 18-week program offers the most comprehensive package at \$9,850. Students benefit from the same engaging daily lectures and resources, but with thirty one-on-one tutoring sessions, they receive unparalleled individualized attention. This extended duration ensures that students can master the material at a comfortable pace, allowing for a thorough understanding of both basic and clinical sciences. All live lectures across these programs are led by Dr. Vijay Naik himself. His expertise and passion for teaching shine through as he delivers content that transforms rote memorization into genuine comprehension. With a focus on understanding rather than memorizing details, Dr. Naik equips students with the knowledge needed to tackle the complexities of medical exams confidently.

The unique offerings of Survivors Exam Prep extend beyond traditional lectures. For Step 1, students are introduced to essential concepts that lay the groundwork for understanding medicine. The approach taken emphasizes helping students grasp key concepts that enable them to explain intricate aspects of disease processes independently. This method fosters critical thinking, moving beyond mere memorization to a true understanding of the basic sciences.

On the other hand, Step 2 CK focuses on the application of basic science knowledge in clinical scenarios. The program teaches students to manage conditions across various specialties, including surgery, obstetrics, gynecology, and pediatrics. By understanding the underlying disease processes, students learn how to manage these effectively, which minimizes memorization and enhances comprehension.

Step 3 represents the culmination of a student's medical knowledge and skills, tested over a two-day examination. This program equips students with the ability to blend basic and clinical sciences seamlessly. The curriculum dedicates a week to honing clinical skills, particularly for CCS cases, ensuring that students can apply their knowledge effectively. Dr. Naik's approach provides a perfect balance and integration of basic sciences and clinical knowledge, essential for excelling in Step 3.

Survivors Exam Prep's comprehensive curriculum, led by Dr. Vijay Naik, offers medical students a structured yet adaptable pathway to achieving their licensing goals. Through interactive lectures, personalized tutoring, and a focus on genuine understanding, students are prepared to meet the challenges of their exams with confidence. Whether embarking on a 6-week, 12-week, or 18-week program, participants can be assured of high-quality education and support tailored to their learning needs.
