

CloudNuro included in the 2024 Gartner® Magic Quadrant™ for SaaS Management Platforms as an Honorable Mention

CHICAGO, ILLINOIS, USA, August 21, 2024 /EINPresswire.com/ -- CloudNuro, a recognized leader in SaaS Management Platforms, is proud to announce that it has been cited as an Honorable Mention in the 2024 Gartner® Magic Quadrant™ for SaaS Management Platforms. This recognition is a significant milestone for CloudNuro and underscores our commitment to tackling common SaaS sprawl and governance challenges.

Gartner defines SaaS Management Platforms (SMPs) as software tools that help organizations discover, manage, optimize and automate the SaaS application life cycle from one centralized console. Core SMP capabilities include discovery, [cost optimization](#), employee self-service via an application store, insights to increase adoption and automation of onboarding/offboarding activities.

Gartner emphasizes that “through 2027, organizations that fail to attain centralized visibility and co-ordinate SaaS life cycles will overspend on SaaS by at least 25% due to unused entitlements and unnecessary overlapping tools” This recognition underscores the importance of our mission to help organizations manage their SaaS investments effectively.

“We are proud to be included as an Honorable mention in the 2024 Gartner® Magic Quadrant™ for SaaS Management Platforms. “The CloudNuro SaaS Management Platform uniquely combines FinOps and SaaSops to deliver unparalleled visibility across the Cloud and SaaS. Our Solution is designed to increase operational efficiency, reduce shadow IT risks, improve governance and enhance compliance. Customers using the CloudNuro Platform have gained unparalleled, continuous oversight of their entire Cloud and SaaS landscape.” said Pratul Patel, co-founder and CPO, CloudNuro.
