“

Over the years I've been in the financial service business, I've found some people start their retirement journey with hopeful ambitions but few concrete plans.”

*David Treece*

Treece, a seasoned financial planner and the founder of Clients Excel, LLC, is proud to announce the release of his new book, *How to Excel in Retirement: So That You Can Live Worry-Free*. With more than 13 years of experience in the financial services industry—including nearly six years leading Clients Excel—Treece brings a wealth of knowledge and practical advice to those planning for a successful and fulfilling retirement.

Addressing the Need for Individualized Retirement Planning:

In *How to Excel in Retirement: So That You Can Live Worry-Free* Treece emphasizes the importance of personalized retirement planning. “Over the years I've been in the financial service business, I've found some people start their retirement journey with hopeful ambitions but few concrete plans,” says Treece. “They decide they are ready to climb their retirement mountain and begin with nothing more than anecdotal experiences from friends and family. The problem with polling our connections about retirement planning is we are all different. We have varying work histories, health statuses, resources, and the list could go on. We are all unique, and we all have nuances in our lives. What makes you tick may not make your co-worker tick, so their anecdotal financial advice may not fit you.”

A Guide to Practical Steps for Retirement Success:

Treece's book covers practical steps to help readers avoid common pitfalls and enhance their chances of excelling in retirement. He draws from his extensive experience to provide actionable advice that caters to the unique needs of each individual. “Individual planning is essential to help ensure you are positioned to achieve as many of your objectives as possible,” Treece explains.
