## Growth Driver Of The Hemoglobin Testing Market

A rising prevalence of chronic disorders such as diabetes is expected to propel the growth of hemoglobin testing. Diabetes is a chronic condition that arises when the pancreas does not create enough insulin or when the body does not utilize the insulin that is produced adequately. Hemoglobin A1c tests (HbA1c) are used to monitor glucose levels in diabetic patients and are recommended by the American Diabetes Association as a viable option for fasting blood glucose

for diabetes diagnosis.
