

# Global Hazardous Waste Handling Automation Market Overview And Statistics For 2024-2033

*The Business Research Company's  
Hazardous Waste Handling Automation  
Global Market Report 2024 – Market Size,  
Trends, And Global Forecast 2024-2033*

LONDON, GREATER LONDON, UK,  
August 22, 2024 /EINPresswire.com/ --  
The [hazardous waste handling  
automation market](#) has experienced  
robust growth in recent years,  
expanding from \$29.98 billion in 2023

to \$33 billion in 2024 at a compound annual growth rate (CAGR) of 10.1%. The growth in the historic period can be attributed to stringent environmental regulations, occupational safety and health compliance, increased volume of hazardous waste, cost-efficiency and resource optimization, risk reduction and minimization.

Hazardous Waste Handling Automation Global  
Market Report 2024 : Market Size, Trends, And Global  
Forecast 2024-2033

“

The hazardous waste handling automation market size is expected to see strong growth in the next few years. It will grow to \$46.61 billion in 2028 at a compound annual growth rate (CAGR) of 9.0%.”

*The Business Research  
Company*

## Strong Future Growth Anticipated

The hazardous waste handling automation market is projected to continue its strong growth, reaching \$46.61 billion in 2028 at a compound annual growth rate (CAGR) of 9.0%. The growth in the forecast period can be attributed to technological integration in waste management, circular economy and sustainable practices, global industry trends in waste reduction, cross-sector collaborations, public awareness and environmental concerns.

## Growth Driver Of The Hazardous Waste Handling Automation Market

The increasing amount of waste is expected to boost the growth of the hazardous waste handling automation market going forward. The rapid rise in population and urbanization has

led to an increase in the amount of waste which includes both hazardous and non-hazardous waste. While non-hazardous waste is comparatively easier to dispose of, hazardous waste disposal requires immediate attention. Hazardous waste handling automation ensures the safe disposal of this waste, which otherwise could pose a risk to the manual handlers and the environment.

### Major Players And Market Trends

Key players in the hazardous waste handling automation market include Hydrauliska Industri AB, Clean Harbors Inc., Konecranes Oyj, Penz Crane GmbH, PaR Systems Inc., Autosales Incorporated.

The advancement of new hazardous waste handling automation products is a key trend gaining popularity in the hazardous waste handling automation market. Companies operating in the hazardous waste handling automation market are adopting new technologies for better handling of hazardous waste management to sustain their position in the market.

### Segments:

- 1) By Type: Manipulator Arms, Telescoping Masts, Cranes, Trusses, Size Reduction Systems
- 2) By Waste: Listed Wastes, Characteristic Waste, Universal Wastes, Mixed Wastes
- 3) By End-User Industry: Manufacturing, Chemical, Energy, Consumer Care, Government, Other End Users

### Geographical Insights: North America Leading The Market

North America was the largest region in the global hazardous waste handling automation market in 2023. Asia-Pacific is expected to be the fastest-growing region in the forecast period. The regions covered in the hazardous waste handling automation market report are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, Africa

### [Hazardous Waste Handling Automation Market Definition](#)

Hazardous waste handling automation is the process of using technology and automation systems to enhance the management, handling, and disposal of hazardous waste materials. It involves the application of various technologies, including robotics, artificial intelligence (AI), machine learning, sensors, and automation software, to automate and streamline hazardous waste management processes.

Hazardous Waste Handling Automation Global Market Report 2024 from The Business Research Company covers the following information:

- Market size data for the forecast period: Historical and Future
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Trends, opportunities, strategies and so much more.

The Hazardous Waste Handling Automation Global Market Report 2024 by The Business Research Company is the most comprehensive report that provides insights on [hazardous waste handling automation market size](#), hazardous waste handling automation market drivers and trends, hazardous waste handling automation market major players, hazardous waste handling automation competitors' revenues, hazardous waste handling automation market positioning, and hazardous waste handling automation market growth across geographies. The hazardous waste handling automation market report helps you gain in-depth insights into opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.
