The 2019 report by the [Massachusetts Healthy Aging Collaborative](#) reveals that in Dedham, 34.8% of individuals aged 65 and older report experiencing depression—slightly higher than the state's average of 31.5%. The report also highlights a marginally elevated anxiety rate in Dedham, with 26.9% of seniors affected, compared to the state average of 25.4%. Additionally, data from the [Massachusetts Association for Mental Health](#) show that as of 2020, 36% of youth in Massachusetts have faced trauma, abuse, or stress. These statistics underscore the urgent need for improved mental health services and community support to effectively address these challenges.

“

We're thrilled to bring Northeast Health Services to the Dedham community and the Greater Boston area. We can't wait to start increasing access to mental health care in this part of the state.”
