DALLAS, TEXAS, UNITED STATES, August 22, 2024 /EINPresswire.com/ -- Dallas plastic surgeon and rhinoplasty specialist, Dr. Rod J. Rohrich, has been ranked as the [best rhinoplasty surgeon in the United States](#) for the fourth consecutive year in Newsweek's most recently published peer reviewed list of top performing plastic surgeons.

Partnering with data analytics provider, Statista Inc., Newsweek has published a ranked list of the best plastic surgeons in the United States for each of the five most common cosmetic procedures: breast augmentation, liposuction, facelifts, eye lifts, and rhinoplasty.

These ranked lists were curated as the result of an independent, national survey conducted over March and April of 2024, which queried thousands of industry experts ranging from physicians, surgeons, plastic surgery clinic managers, and health care professionals working in plastic surgery. Based on the results of this survey, a score was calculated for each surgeon based on the number of recommendations, a quality assessment, and relevant certifications and background of the candidates.

The results were then compiled and the top 30 plastic surgeons from each category were ranked and listed by their scores, with the remaining candidates being listed alphabetically. Over 8,400 were collected, reviewed, and analyzed to help produce the score for each procedure.
