

Global Blood Preparation Market Size, Share And Growth Analysis For 2024-2033

The Business Research Company's Blood Preparation Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033

LONDON, GREATER LONDON, UK,
August 23, 2024 /EINPresswire.com/ --

The global blood preparation market has seen significant growth in recent years, expanding from \$44.46 billion in 2023 to an anticipated \$47.72 billion in 2024, at a compound annual growth rate (CAGR) of 7.3%.

This growth is driven by the increasing prevalence of blood disorders, a rise in blood transfusion procedures, growing awareness of blood safety, and stringent government regulations. Looking forward, the market is expected to reach \$61.04 billion by 2028, growing at a CAGR of 6.3%,

fueled by the rising demand for blood components, personalized medicine approaches, and global healthcare infrastructure development.

Blood-Related Disorders Fueling Expansion in the Blood Preparation Market

[The growing incidence of blood-related disorders](#) is a key factor driving the expansion of the blood preparation

market. These disorders, including blood cancer, significantly impact the components, functions, or clotting abilities of blood, often requiring specialized treatments or transfusions. For example, Blood Cancer UK reported in August 2022 that approximately 41,000 people are diagnosed with blood cancer annually in the UK, with around 250,000 individuals living with the condition. The rising incidence of such disorders is expected to continue propelling market growth.
