COMO, CO, ITALY, August 23, 2024
/EINPresswire.com/ -- The A' [Design Award](#), a highly respected award in the field of [kitchenware](#) design, has announced "The Niall" by [Tiago Russo and Katia Martins](#) as the Silver Award winner in the Bakeware, Tableware, Drinkware and Cookware Design category. This prestigious recognition highlights the significance of the Kitchenware and Horeca Awards within the kitchenware and design industries, positioning it as a notable achievement for the winning design.

The Niall

The Niall's award-winning design aligns with current trends in the kitchenware industry, addressing the need for enhanced nosing and tasting experiences in cognac glassware. By advancing industry standards and practices, this innovative design offers practical benefits for cognac aficionados, the kitchenware industry, and other stakeholders, emphasizing both utility and innovation in its approach.

The Niall stands out in the market with its carefully conceived elements that allow the drinker to fully appreciate the cognac's complex profiles. The conical-shaped depression at the base controls the flow of the whiskey, while the bulb design creates a chamber and more wall space for the ethanol vapour to dissipate. The thick base and stem provide a comfortable grip without affecting the liquid's temperature, ensuring an optimal tasting experience.

This recognition from the A' Kitchenware and Horeca Awards serves as motivation for Tiago

Russo and Katia Martins to continue striving for excellence and innovation in their future projects. The award inspires the team to further explore and develop designs that enhance the drinking experience, fostering continued growth and creativity within their brand.
