

Musee Beijing Flagship Store by AntiStatics Architecture Wins Silver in A' Interior Design Awards

AntiStatics Architecture's Innovative Retail Design Recognized with Prestigious International Design Award

COMO, CO, ITALY, August 23, 2024 /EINPresswire.com/ -- The A' Design Award, one of the world's most prestigious and highly respected [design competitions](#), has announced that the Musee Beijing Flagship Store by [AntiStatics Architecture](#) has been awarded the Silver A' Design Award in the [Interior Space and Exhibition Design](#) category. This recognition highlights the exceptional design and innovation demonstrated by AntiStatics Architecture in creating a retail space that embodies elegance, sustainability, and creativity.

Musee Beijing Flagship Store

The Musee Beijing Flagship Store's award-winning design showcases the importance of sustainable practices and innovative thinking in the interior design industry. By incorporating recycled elements, modular systems, and cutting-edge technologies, AntiStatics Architecture has created a retail space that not only captivates customers but also aligns with the growing demand for environmentally conscious design solutions. This recognition serves as an inspiration for interior designers and brands to prioritize sustainability and innovation in their projects.

The flagship store's design revolves around a recycled loop concept, symbolizing the cyclical nature of fashion and the brand's commitment to sustainability. The consistent wood band framework, adorned with 3D-printed woven textures and stainless steel metal art walls, creates a warm and inviting atmosphere that seamlessly integrates with innovative display systems. The meticulous attention to detail and the fusion of traditional materials with advanced technologies

result in a retail space that offers a unique and engaging shopping experience.

Winning the Silver A' Design Award in the Interior Space and Exhibition Design category is a testament to AntiStatics Architecture's dedication to pushing the boundaries of interior design. This recognition is expected to inspire the studio to continue exploring innovative design solutions and sustainable practices in their future projects. By setting a high standard for retail design, the Musee Beijing Flagship Store serves as a benchmark for the industry, encouraging other designers and brands to strive for excellence and creativity.

Project Members

The Musee Beijing Flagship Store was designed by AntiStatics Architecture, with Mo Zheng and Martin Miller as the Design Principals. The talented design team, consisting of Wenlin Bai, Dhaga Aman, Christopher Beckett, CiCi Xi, and Tracy Qiu, contributed their expertise to bring this innovative retail space to life.

About AntiStatics Architecture

AntiStatics Architecture is an international creative architecture and design studio founded by Mo Zheng and Martin Miller, with offices in Beijing and New York. The studio focuses on innovative design, utilizing cutting-edge digital tools and advanced fabrication techniques to develop elegant solutions. AntiStatics Architecture's portfolio includes master planning, architectural design, interiors, art installations, stage design, and cutting-edge technological research.

About Silver A' Design Award

The Silver A' Design Award recognizes top-tier designs that demonstrate excellence, innovation, and a deep understanding of the design process. Recipients of this award are acknowledged for their contributions to raising industry standards and advancing the practice of design through their original, highly functional, and aesthetically pleasing creations. The rigorous selection process involves blind peer-review by a panel of design professionals, industry experts, journalists, and academics, ensuring that only the most deserving projects receive this prestigious recognition.

About A' Design Award

The A' Design Award is an international, juried design competition that has been recognizing and promoting superior design across all industries since 2008. With a philanthropic mission to enhance society through the power of good design, the A' Design Award motivates designers and brands to develop innovative products and projects that positively impact the global community. By showcasing these pioneering designs on an international stage and celebrating the creative minds behind them, the A' Design Award drives forward the cycle of inspiration and

advancement in design. Interested parties may learn more about the A' Design Awards, explore jury members, view past laureates, and participate with their projects at:
