NEW YORK, NEW YORK, UNITED STATES, August 23, 2024

[/EINPresswire.com/](#) -- IGC Hospitality's newest venture, Vintage Green, has opened its doors to reveal a stunning rooftop bar. The bar features a captivating atrium designed by Dallago Associates and constructed by JDP Build Construction. A focal point of the space is an accent wall adorned with Stoneyard's [Newport Mist Square and Rec](#) natural thin stone veneer.

This striking design element infuses the atrium with a sophisticated, natural ambiance, creating a captivating oasis amidst the bustling city skyline. The combination of Stoneyard's premium stone veneer and JDP Build Construction's expert craftsmanship has resulted in a truly exceptional space.

"Vintage Green is an homage to when NYC was first becoming industrialized over 100 years ago," says designer Sharon Dallago Gendens. "The design dichotomy of infusing cement, limestone, distressed bricks and metals with the landscaping throughout of trees, florals and vintage block stone is the nod to create this beautiful aesthetic."

IGC Hospitality is renowned for creating unique and memorable dining experiences, and Vintage Green is no exception. The rooftop bar offers breathtaking views of the city, a carefully curated cocktail menu, and a stylish atmosphere that perfectly complements its stunning design.
