According to Ruedy, the Federal Reserve is likely to lower the prime lending rate in their upcoming meeting, which will only further decrease mortgage rates. This presents a unique opportunity for homeowners to reduce their monthly mortgage payments and save money in the long run. Ruedy urges homeowners to act quickly, as interest rates are unpredictable and can change at any time.

"Homeowners who have purchased or refinanced in the past 14 months should seriously consider taking advantage of these low interest rates," says Ruedy. "By [refinancing](#) now, they have the potential to save hundreds of dollars each month, which can add up to significant savings over the life of their loan."

Ruedy also emphasizes the importance of working with a trusted and experienced mortgage lender, such as The Home Loan Arranger, to navigate the refinancing process. With over 30 years of experience in the industry, Ruedy and his team have helped countless homeowners secure the best possible rates and terms for their mortgages. Lower rates, lower fees, faster closings,

that's how The Home Loan Arranger does business.

As the Federal Reserve prepares for its September meeting, homeowners should take heed of Jason Ruedy's advice and consider refinancing to take advantage of the [lowest interest rates](#) in over 14 months. With the potential to save hundreds of dollars each month, now is the time for homeowners to act and secure a better financial future for themselves and their families.
