"I hope the audience will take away a sense of empowerment and the realization that they are not alone in their struggles. They should feel encouraged to seek help, speak out about their experiences, and find strength in their journey towards healing and personal growth," she continued.

"My talk combines deeply personal experiences with actionable insights, inspiring women to forgive others, forgive themselves rise above their circumstances, and thrive," she expressed.

Her talk, titled "3 Strategies for Enhancing Reproductive Health and Personal Growth for Women," was crafted using the S.T.O.R.Y. System for Transformational Storytelling, created by Dr. Elayna Fernández.

"Elayna's S.T.O.R.Y. System is straightforward and intuitive. It focuses on authenticity and emotional connection. It has added value to my storytelling by helping me highlight the key elements of my journey, enhancing the depth and impact of my messages, and making my narrative more relatable and impactful. This has significantly enhanced my personal and professional brand.

Since incorporating Elayna's S.T.O.R.Y. System, I have seen a noticeable increase in audience engagement and positive feedback. My social media following has grown, and I have received more invitations to speak at events. My programs, such as "Mothers are First Responders: Fibroids Begone" have also gained more traction and support," she shared.
