## Growth Driver Of The Consumer And SMB NAS Market

The growing remote access work is expected to propel the growth of the consumer and SMB NAS market going forward. Remote access for workforce mobility refers to the capability for employees to access company resources, data, and systems from locations outside the traditional office environment. Remote access is used by consumers, SMBs (small and medium-

sized businesses), and NASs (network-attached storage) to access their data and files from locations outside of their local network. This capability enhances flexibility, collaboration, and productivity, especially in the context of remote work scenarios.
