

# Biogas Market Size to Worth Around USD \$78.32 Bn by 2031 | Scandinavian Biogas Fuels International AB

*Biogas primarily consists of methane, carbon dioxide (CO<sub>2</sub>), and small amounts of hydrogen sulfide (H<sub>2</sub>S). It is produced from materials such as agricultural*

BURLINGAME, CALIFORNIA, UNITED STATES, August 26, 2024 /EINPresswire.com/ -- Market Overview:

Biogas is a renewable energy source produced from organic matter through anaerobic digestion. It is utilized as an alternative fuel in various applications such as electricity generation, vehicle fuel, and cooking gas.

Market Dynamics:

The biogas market is expected to witness significant growth over the forecast period owing to growing support from governments around the world to adopt renewable energy sources. Governments are offering subsidies and tax incentives for biogas plant installation, which is positively impacting the market growth. Furthermore, biogas is a cleaner source of energy compared to fossil fuels and helps reduce greenhouse gas emissions. The use of biogas for electricity generation also provides an alternate solution to integrate more renewable power into the grid.

Major Drivers in the Biogas Market

Increasing Concerns about Greenhouse Gas Emissions

There is a growing concern among governments and public regarding the rising greenhouse gas emissions from various industries that are contributing to global warming and climate change. Biogas provides a renewable source of energy that can help reduce dependence on fossil fuels which are one of the major contributors of greenhouse gases. Many countries are promoting the use of biogas as it is a carbon neutral source of energy.

## Major Opportunity in the Biogas Market

### Increasing Focus on Organic Waste Management

With rapid urbanization and population growth, the volumes of organic waste generated across various sectors including municipalities, food processing industries and agriculture is rising dramatically. Effective waste management is becoming a big challenge for many countries. Biogas production provides an opportunity to convert organic waste into renewable energy while also treating waste in an environmentally friendly way. This is attracting more focus on adopting biogas technology for integrated waste-to-energy solutions.

### Major Trend in the Biogas Market

#### Advancements in Biogas Production Technologies

Continuous research and development activities are helping improve the existing biogas production technologies and processes. This is making biogas production more efficient, cost-effective and capable of handling diverse feedstock. Advanced digester designs, automated plant controls, feedstock pre-treatment technologies are some of the emerging technologies accelerating biogas production. Use of innovative catalysts to boost methane yields from biogas is another growing trend. Such technological advancements are positively impacting the commercialization of biogas projects.

#### Top Companies Included in This Report:

- Scandinavian Biogas Fuels International AB
- Air Liquide Advanced Business and Technologies
- Himark Biogas
- Vanzetti Engineering
- Greenlane Biogas
- MT-Energie GmbH
- DMT Environmental Technology
- others.

#### Market Segmentation:

##### By Applications:

- Electricity & Heat Generation

- Vehicle Fuel
- Domestic Cooking
- Others

Key Regions/Countries are Classified as Follows:

- » North America (U.S., Canada, Mexico)
- » Europe (Germany, U.K., France, Italy, Russia, Spain, Rest of Europe)
- » Asia-Pacific (China, India, Japan, Singapore, Australia, New Zealand, Rest of APAC)
- » South America (Brazil, Argentina, Rest of SA)
- » Middle East & Africa (Turkey, Saudi Arabia, Iran, UAE, Africa, Rest of MEA)

□ Request For Customization at: @ <https://www.coherentmarketinsights.com/insight/request-customization/3015>

The report offers insights on the following topics:

Chapter 1: Study Coverage

Chapter 2: Executive Summary

Chapter 3: Competitor Landscape of the Biogas Market by Players

Chapter 4: Market Size of the Biogas Market by Type and Application

Chapter 5: Global and Regional Analysis

Chapter 6: Company Profiles, Recent Developments, and Investments

Chapter 7: Analysis of Market Opportunities, Challenges, Risks, and Influencing Factors

Chapter 8: Analysis of Value Chain and Sales Channels, including notable product developments

Chapter 9: Research Findings and Conclusion

Chapter 10: Methodology/Research Approach

Ultimately, the Biogas Market report serves as a reliable source for acquiring market research to significantly enhance your business. It furnishes essential insights into regional economic conditions, product pricing, profitability, capacity, production, supply, demand, market growth rate, and forecasts. Additionally, the report includes a SWOT analysis, investment feasibility analysis, and return on investment analysis for new projects within the Biogas industry.

Should the aforementioned report not meet your precise requirements, we offer customized research tailored to comprehensively address your specific business needs. Our customized research will encompass all the pertinent business information necessary to assist you in making strategic and profitable business decisions.

#### Author Bio:

Priya Pandey is a dynamic and passionate editor with over three years of expertise in content editing and proofreading. Holding a bachelor's degree in biotechnology, Priya has a knack for making the content engaging. Her diverse portfolio includes editing documents across different industries, including food and beverages, information and technology, healthcare, chemical and materials, etc. Priya's meticulous attention to detail and commitment to excellence make her an invaluable asset in the world of content creation and refinement.

#### About Us

Coherent Market Insights is a global market intelligence and consulting organization that provides syndicated research reports, customized research reports, and consulting services. We are known for our actionable insights and authentic reports in various domains including aerospace and defense, agriculture, food and beverages, automotive, chemicals and materials, and virtually all domains and an exhaustive list of sub-domains under the sun. We create value for clients through our highly reliable and accurate reports. We are also committed in playing a leading role in offering insights in various sectors post-COVID-19 and continue to deliver measurable, sustainable results for our clients.
