

# FacilityONE Introduces F1 INSPECTS: A Mobile Tool for Streamlining Facility Inspections and Ensuring Compliance

*FacilityONE launches F1 INSPECTS, an easy-to-use tool designed to streamline facility inspections and help facility managers maintain regulatory compliance.*

BUFFALO, NY, UNITED STATES, August 26, 2024 /EINPresswire.com/ -- [FacilityONE](#), a leading facilities management solutions provider, is proud to announce the launch of F1 INSPECTS, an easy-to-use tool designed to streamline facility inspections and help facility managers maintain regulatory compliance.

“

This mobile tool not only simplifies the inspection process for facility managers and technicians but also helps our clients maintain compliance while optimizing their facility operations.”

*Pierre Harrison, FacilityONE  
CEO*

F1 INSPECTS allows facility managers to create customized inspections and rounds or choose from FacilityONE's pre-built compliance templates. This adaptability makes it simple for every facility to tailor its inspections to meet specific needs while maintaining industry standards.

Facility technicians can utilize F1 INSPECTS on smartphones and tablets through a user-friendly mobile platform, enabling them to complete inspections and rounds efficiently—even in areas with no internet access. This offline capability is critical to compliance, ensuring

that inspections are never delayed, regardless of connectivity challenges.

“We are excited that F1 INSPECTS, the newest product in the UNITY Solutions Suite, is now available to current and future FacilityONE clients,” said Pierre Harrison, CEO at FacilityONE. “This mobile tool not only simplifies the inspection process for facility managers and technicians but also helps our clients maintain compliance while optimizing their facility operations.”

In addition, when a facility technician identifies an issue requiring corrective action, they can utilize F1 INSPECTS to automatically generate a work order within F1 WORKS, FacilityONE's work order management system. This seamless integration ensures that necessary actions are

promptly addressed and tracked. Reporting dashboards, also available to clients, can provide real-time insights into inspection data. These comprehensive dashboards allow facility managers to monitor regulatory compliance, identify important trends, and determine areas for improvement.

### About FacilityONE

Headquartered in Charlotte, North Carolina, FacilityONE proudly serves a diverse portfolio of clients, facilities, and technicians throughout the world. FacilityONE partners with clients to provide simple facilities management solutions, including interactive maps, which feature instant access to facility data, workflows, and analytics. The easy and effective solutions provided by FacilityONE enhance a building's functionality, economic lifespan, and employee productivity, while easily integrating into existing programs and processes.
