One cannot truly understand the impact of Epilepsy until it affects someone close to them. It is often at that point that a deeper awareness and passion are sparked."

Hope Sheree

THE WTTS 4 EPILEPSY STORY

On September 2, 2019, founders Tanisha and Bobby Graves encountered a moment that would change their lives forever. This day would be unforgettable for them. Tanisha made a heartbreaking discovery when she found her son, Marquis Devon Chapman, unresponsive in bed while trying to adjust his pillow. When she turned him over, she realized that her cherished son had passed away tragically due to S.U.D.E.P (sudden unexpected death in epilepsy).

As a result, When The Trumpet Sounds (WTTS) was established by the couple on March 25, 2021. Their mission is to unite parents, patients, medical professionals, and insurance providers. It is time to foster collaboration, empathy, and find solutions together. Let us heed Marquis' words, "I Pulled The Sun Out For You." Let us honor Marquis's vision and strive for a future with a cure, sparing others the pain of losing a loved one to epilepsy. Epilepsy brings many challenges (disparities, stigma, S.U.D.E.P., and lack of support for minorities), and we aim to bring awareness to these issues. Recently, the WTTS 4 Epilepsy team has been conducting training sessions on seizure awareness in police stations and judicial court systems. Check out www.wtts4epilepsy.org for advocacy, training, support, and to buy the incredible memoir written by Tanisha Tyler-Graves for her son, titled "I Pulled The Sun Out For You".
