The America's Best Addiction Treatment Centers 2024 list highlights the nation's top facilities based on a comprehensive quality of service, reputation, and accreditation relative to in-state competition. Facilities in the 25 states with the highest number of addiction treatment centers, according to the Substance Abuse and Mental Health Services Administration (SAMHSA), were included in the survey. The evaluation process was comprised of three factors:

- Recommendations & Reputation from Peers: Over 4,000 medical professionals (therapists, counselors, medical doctors) and managers/administrators working in addiction treatment facilities were confidentially surveyed. Recommendations for their employer were not allowed.
- Quality Score: Participants were also asked to rank the top clinical and operational factors impacting quality.
- Accreditation Score: Accreditation data on addiction treatment centers provided by SAMHSA.

Being recognized on Newsweek's list of America's Best Addiction Treatment Centers 2024 validates Summit's ongoing commitment to and record for quality, innovation, and compassionate care across its network.

"Summit's team of compassionate team members are committed to delivering superior, patient-focused care across all the communities we serve," said Brent Turner, Summit CEO.
