

# GenBio Inc, is Pleased to Announce the Filing of a Provisional Patent for its Identified Therapeutic Compound

*This marks a major milestone for GenBio Inc and its ongoing efforts to revolutionize the future of medicine.*

ALISO VIEJO, CA, UNITED STATES, August 27, 2024 /EINPresswire.com/ -- GenBio Inc, a leading biotechnology company, has announced significant developments in its research program. As a result, the company has filed a [provisional patent](#) for its identified [therapeutic compound](#). This marks a major milestone for GenBio Inc and its ongoing efforts to revolutionize the future of medicine.

The provisional patent, filed with the assistance of the company's IP attorneys, is a crucial step in protecting GenBio Inc's groundbreaking research. This patent will provide the company with

“

The fundamental activity of medical science is to determine the ultimate causation of disease.”

*Wilfred Trotter*

exclusive rights to its therapeutic compound, giving them a competitive advantage in the market. The company is confident that this compound has the potential to make a significant impact in the treatment of various diseases and conditions.

While the details of the therapeutic compound remain confidential, GenBio Inc has stated that they will release

further information to the market as advised by their IP attorneys. This includes ongoing developments and non-confidential details that will provide a deeper understanding of the compound's potential. The company is committed to transparency and will continue to keep the public informed as their research progresses.

GenBio Inc's Co-Founder, Todd D. Sonoga, expressed his excitement about this latest development, stating, "We are thrilled to file a provisional patent for our identified therapeutic compound. This is a testament to the hard work and dedication of our team and the potential

impact this compound can have on the medical field. We look forward to sharing more details with the public as we continue to advance our research."

GenBio Inc's provisional patent filing is a significant step towards bringing their innovative therapeutic compound to the market. The company remains dedicated to its mission of improving the lives of patients through groundbreaking research and development. Stay tuned for more updates from GenBio Inc as they continue to make strides in the field of biotechnology.

About GenBio Inc.

GenBio, Inc. aims to create, through its IND ([Investigational New Drug](#)) program, the next generation of anti-inflammatory drugs to disrupt the projected \$191 billion+ anti-inflammatory drug market. GenBio, in addition, has access to a vast catalog of natural herbs, extracts, superfoods, and functional food ingredients that can and will be formulated and licensed out to create a range of new nutraceuticals to aid in boosting the human immune system and promoting good health and longevity.

**FORWARD-LOOKING STATEMENTS:** Except for historical information provided herein, this press release may contain information and statements of a forward-looking nature concerning the future performance of the Company. These statements are based on suppositions and uncertainties as well as on management best possible evaluation of future events. Such factors may include, without excluding other considerations, fluctuations in quarterly results, evolution in customer demand for Company products and services, the impact of price pressures exerted by competitors, and general market trends or economic changes. As a result, readers are advised that actual results may differ from expected results.
