**Growth of Online Food Industry Fuels Market Expansion**  
The growth of the online food industry is a major driver of the foodservice disposables market. As consumer demand for convenience rises, coupled with advancements in delivery logistics and the widespread adoption of mobile applications for ordering food, the need for foodservice disposables that offer convenient, hygienic, and cost-effective packaging solutions has increased significantly.

According to the Australian Bureau of Statistics, online food retailing sales grew from 5.8% in December 2022 to 6.4% in December 2023, indicating a growing trend that is expected to continue.
