

# Rogers, AR Embraces Modernization with OpenGov Procurement

ROGERS, ARKANSAS, UNITED STATES, August 29, 2024 /EINPresswire.com/ -- Facing manual processes and the need for more transparency in tracking contract performance, the City of Rogers, AR, sought a new solution to overhaul its procurement system. After thorough research, Rogers found its answer in [OpenGov](#), the leading procurement software solution known for its user-friendly design and powerful functionality.

Rogers had been dealing with outdated, server-based processes that involved tracking procurement data in spreadsheets, slowing down workflow and limiting visibility. Seeking a platform that could bring automation, reporting, and streamlined RFP development to the forefront, Rogers chose [OpenGov Procurement](#) for its ability to offer robust contract management, real-time dashboards, and improved RFP tracking. The comprehensive capabilities of OpenGov Procurement set it apart during the City's search for a modern, efficient solution.

By adopting OpenGov Procurement, Rogers can anticipate a significant transformation in its procurement processes. The software's advanced features are expected to cut down administrative time, improve transparency by enabling real-time tracking of budgeted versus actual expenditures, and simplify contract management with automated alerts and reporting. Furthermore, with its ease of use and enhanced data visibility, the city anticipates stronger cross-departmental collaboration and increased efficiency in handling RFPs and vendor relations.

Rogers joins more than 1,900 public sector organizations leveraging OpenGov to revolutionize work processes with cloud-based software designed specifically for the needs of government.

## About OpenGov

OpenGov is the leader in modern cloud software for cities, counties, state agencies, and special districts. With a mission to power a more effective and accountable government, OpenGov serves more than 1,900 public sector leaders and their organizations. OpenGov is built exclusively for the unique budgeting and planning, accounting, permitting and licensing, procurement, asset management, and tax and revenue needs of the public sector. The OpenGov Cloud empowers organizations to operate more efficiently, adapt to change, and strengthen

trust with the communities they serve. Learn more or [request a demo](#) at [opengov.com](https://opengov.com).
