Increasing Use in Chronic Pain Management Fuels Market Growth

The growing use of gel ice packs in managing chronic pain is a key driver of market growth. Gel ice packs provide effective localized cooling therapy that helps reduce inflammation, numb painful areas, and alleviate discomfort. With the increasing prevalence of conditions like arthritis and diabetes, alongside an aging population

and sedentary lifestyles, the demand for gel ice packs is rising. According to the CDC, about 20.9% of U.S. adults reported experiencing chronic pain in 2021, emphasizing the significant need for effective pain management solutions.
