Telestroke Services Global Market Report  
2024 – Market Size, Trends, And Global  
Forecast 2024-2033*

LANDON, GREATER LONDON, UK,  
August 30, 2024 /EINPresswire.com/ --

The telestroke services market has experienced robust growth in recent years, expanding from \$1.47 billion in 2023 to \$1.67 billion in 2024 at a compound annual growth rate (CAGR) of 13.9%. The growth in the historic period can be attributed to highly developed healthcare infrastructure, regular reimbursement methods, favorable legislation, shortage of stroke specialists in rural and underserved areas, and urgent need to reduce time to treatment.

## Strong Future Growth Anticipated

The telestroke services market is projected to grow strongly, reaching \$2.82 billion in 2028 at a compound annual growth rate (CAGR) of 14%. The growth in the forecast period can be attributed to the growing demand for telehealth, growing patient preference for virtual stroke consultations and guidelines by healthcare organizations,

the low-cost benefits of telestroke services, the adoption of time-sensitive and effective work processes for telestroke services, and a rise in research.
