Spouted Pouches Global Market Report
2024 – Market Size, Trends, And Market
Forecast 2024-2033*

LONDON, GREATER LONDON, UK,
August 30, 2024 /EINPresswire.com/ --

The spouted pouches market has experienced robust growth in recent years, expanding from \$3.15 billion in 2023 to \$3.44 billion in 2024 at a compound annual growth rate (CAGR) of 9.3%. The growth in the historic period can be attributed to the growing demand for energy drinks, growing demand for cost-effective alternatives, increasing demand for packaged food, an increase in food retail, and the increasing adoption of spout pouches.

Strong Future Growth Anticipated

The spouted pouches market is projected to continue its strong growth, reaching \$4.98 billion in 2028 at a compound annual growth rate (CAGR) of 9.7%. The growth in the forecast period can be attributed to increasing demand for convenient and sustainable packaging, convenience, and portability, rising penetration of the

organized e-retail sector across the world, and increasing demand for spouted pouches in the food and beverage industries.

Growth Driver Of The Spouted Pouches Market

The increasing demand for on-the-go food and beverage products is expected to propel the growth of the spouted pouch market going forward. On-the-go food and beverage products refer to items that are convenient and easy to consume outside of traditional dining environments, such as at work, during travel, or while engaging in other activities. The increasing demand for

on-the-go food and beverage products is driven by busy lifestyles, convenience preferences, and urbanization trends. Spouted pouches are ideal for on-the-go food and beverage products due to their portable, resealable design, making them convenient for consumers to carry, pour, and consume without spills, making them perfect for busy lifestyles and urban settings.
