

# INOMICS Introduces AI-Powered CV Matching Tool to Help Economists Find Jobs or Internships

---

BERLIN, GERMANY, August 29, 2024 /EINPresswire.com/ -- [INOMICS](#), the platform for economics careers and education, is thrilled to announce the launch of its new AI-driven CV matching feature. This tool is designed to help users quickly and easily find the right job or internship that matches their skills and experience with opportunities listed on the INOMICS website.

## Making Job Hunting Easier

INOMICS knows that searching for a job or internship can be time-consuming and stressful, especially in a specialized field like economics. That's why this AI feature was developed, to take the guesswork out of the process. After the CV is uploaded, and the AI tool will do the rest, matching the user with the most relevant positions based on the qualifications and career goals.

## What Can Be Expected:

**Accurate Matches:** The AI tool scans the CV to understand individual skills and experience, then pairs the CV with jobs and internships posted on INOMICS that best fit the profile.

**Time Efficient:** Instead of scrolling through endless listings, AI brings the most suitable opportunities straight to the user.

**User-Friendly Experience:** INOMICS has made sure this feature is easy to use. Upload the CV, and within seconds, personalized job recommendations tailored to user's profile will be received.

**Always Improving:** This AI tool learns over time, meaning the matches will get even better the more they are used.

## Supporting Economist's Career Journey

INOMICS' mission is to support economists at every stage of their careers. This new AI-powered feature is a big part of that commitment. Whether you're just starting out or looking to take the next big step, INOMICS' tools are designed to help you find the right opportunities.

## About INOMICS

INOMICS is an online platform that helps economics students and economists reach their academic and professional goals. This is achieved through the provision of a personalized feed

of opportunities including jobs, courses, programs, summer schools, and grants, updated daily and tailored to match one's own specified ambitions. With an expert community of over 500,000 academics and students, INOMICS has a proven track record of matching students and economists around the world with high quality economics jobs and learning opportunities.
