

# The Nordlys™ Light & Bright™ Treatment Now Available at Luminous Laser and Skin Spa

*Luminous Laser and Skin Spa Introduces a Revolutionary Laser Treatment*

LAGUNA HILLS, CALIFORNIA , UNITED STATES, August 28, 2024 /EINPresswire.com/ -- [Luminous Laser and Skin Spa](#), a leader in aesthetic and dermatological care, is excited to announce the introduction of a state-of-the-art laser treatment, the [Nordlys](#) system from Candela. Named the 2022 Aesthetic Awards Device of the Year, the Nordlys system has been recognized for its innovation and effectiveness, even being featured on NBC's Today Show. Luminous Laser and Skin Spa is proud to be the one of the first clinics in Laguna Hills to incorporate this advanced system into its state-of-the-art practice.

The Nordlys™ Light & Bright™ Treatment Now Available at Luminous Laser and Skin Spa

One of the popular treatments offered with the Nordlys system is the Light & Bright treatment.

“

I'm thrilled to introduce the Nordlys system. This device represents a significant leap forward in IPL technology, offering our patients enhanced treatment options.”

*Founder and CEO Tammy*

This exciting procedure rejuvenates and resurfaces the skin to improve redness, dark spots, textural irregularities, and spider veins. It utilizes a combination of intense pulsed light (IPL) and a non-ablative fractional laser to target and improve skin concerns, stimulate natural collagen production, and achieve bright, glowing skin. The effectiveness of the treatment is backed by clinical studies.

During a Nordlys Light & Bright treatment, energy is delivered into the deeper layers of the skin, where skin

cells absorb the light and convert it into heat energy to eliminate unwanted pigment. This treatment is an excellent option for those looking to renew their skin and reduce signs of aging.

"I'm thrilled to introduce the Nordlys system. This device represents a significant leap forward in IPL technology, offering our patients enhanced treatment options," said Founder and CEO Tammy and Medical Director Ted Fisher at Luminous Laser and Skin Spa. The Nordlys system is more targeted and comfortable than other broadband light (BBL) treatment options. And, because of its gentle treatment approach, more than one treatment type can be done in a single session. "I'm certain our patients will appreciate the superior comfort and consistent results that the Nordlys system offers." Founder and CEO Tammy said.

The Nordlys system offers a more targeted and comfortable experience compared to other broadband light (BBL) treatment options. Its gentle treatment approach allows for more than one treatment type to be performed in a single session.
