

# Via TRM Announces the Launch of Via Academy: A New Online Learning Platform

*Via TRM launches Via Academy, an on-demand training hub to empower international education partners with expert knowledge of Via's product suite.*

BOULDER, CO, US, August 29, 2024 /EINPresswire.com/ -- Via TRM, a leading provider of innovative solutions for international education offices, is excited to announce the launch of [Via Academy](#), an on-demand learning platform designed to enhance the onboarding experience and continuous learning for its partners. This new resource aims to reduce the time and effort required to train new employees while ensuring that users can fully leverage Via's suite of products.

Higher education institutions often face high turnover rates within international education offices, making the onboarding process for new employees a constant challenge. With Via Academy, new hires can now access comprehensive training resources at any time, eliminating the need for extensive one-on-one sessions and allowing international education offices to focus on their core mission.

"We are thrilled to introduce Via Academy as part of our ongoing commitment to the success of our partners," said Vanessa Escoto, Director of Partner Services. "Our goal was to develop a resource that not only simplifies the onboarding process but also empowers our partners to continually improve their skills and knowledge. By offering 24/7 access to our comprehensive training materials, we're ensuring that our partners can make the most of our products, regardless of their schedule or experience level."
