

Trash Bags Market Size, Share, Revenue, Trends And Drivers For 2024-2033

Trash Bags Market Size, Trends, And Forecast 2024-2033

LONDON, GREATER LONDON, UK ,
September 2, 2024 /EINPresswire.com/

-- The trash bags market has experienced robust growth in recent years, expanding from \$10.96 billion in 2023 to \$11.64 billion in 2024 at a compound annual growth rate (CAGR)

of 6.2%. The growth in the historic period can be attributed to the rapid growth of urban areas, increasing global population, the rise of industrial activities, increased awareness of environmental issues, and the need for efficient waste management in commercial establishments.

Strong Future Growth Anticipated

The trash bags market is projected to continue its strong growth, reaching \$14.89 billion in 2028 at a compound annual growth rate (CAGR) of 6.4%. The growth in the forecast period can be attributed to stricter environmental regulations and policies, growing consumer awareness, growth in retail and e-commerce channels, increasing

emphasis on recycling, and growing demand for biodegradables.

Growth Driver Of The Trash Bags Market

The rise of e-commerce and home delivery services is expected to propel the growth of the trash bags market going forward. E-commerce and home delivery services are rising due to increasing consumer demand for convenience, wider product availability, and the efficiency of digital shopping platforms. Trash bags are required in e-commerce and home delivery services to manage packaging waste and maintain cleanliness during the storage and disposal of shipping

materials.
