

OneWell Health Care Enhances its services for Connecticut's IDD Community with Transportation & Assistive Technology

OneWell Health Care enhances IDD support in Connecticut with Uber transportation and advanced Assistive Technology, promoting independence and quality of life.

FARMINGTON, CONNECTICUT, UNITED STATES, August 29, 2024

/EINPresswire.com/ -- OneWell Health Care, a premier provider of home healthcare services for individuals with Intellectual and Developmental Disabilities (IDD) in Connecticut, is pleased to announce an expansion of its service offerings. This enhancement includes the provision of specialized transportation through Uber and the integration of advanced Assistive Technology devices aimed at improving the quality of life and fostering greater independence within the IDD community.

OneWell Providers Transportation via Uber & Assistive Technology Solutions for the IDD Community in CT

“

Our mission is to enhance the lives of individuals with IDD by providing top-quality care and support. With these new services, we empower our participants to live more independently.”

Aytekin Oldac, CEO & Founder of OneWell Health Care

Transportation plays a vital role in promoting independence and community integration. OneWell Health Care's collaboration with Uber is designed to offer safe, reliable, and accessible transportation solutions specifically tailored to the needs of individuals with IDD. This service aims to facilitate daily activities, medical appointments, and social interactions, ensuring that transportation challenges do not impede the pursuit of a vibrant and fulfilling life.

In addition to transportation services, OneWell Health Care is excited to introduce a suite of Assistive Technology devices:

- SmartCare: SmartCare is an innovative alert system designed to assist individuals in managing their daily routines. This intuitive device provides timely reminders for key tasks, such as medication management, attending appointments, and completing daily chores. By helping users maintain a structured schedule, SmartCare supports their ability to stay organized and engaged in essential activities.

- Invidyo Health: A cutting-edge health monitoring device that delivers real-time data on vital health metrics, enabling proactive management of health conditions and minimizing the risk of medical emergencies.

- The Communication Tablet: A user-friendly device designed to empower individuals with communication challenges. This tablet facilitates effective communication, enabling users to express their needs, preferences, and emotions more clearly and independently.

OneWell Health Care continues to lead the way in providing comprehensive services that address the evolving needs of the IDD population. The integration of Uber transportation solutions and cutting-edge Assistive Technology devices highlights the organization's commitment to innovation and excellence in care.
