

The Researcher Spotlight Series Returns: Connect with Leading Experts in Arthritis and Autoimmune Disease Research

Join top researchers for a deep dive into the latest arthritis management and research in this free webinar series from ANRF.

IRVINE, CALIFORNIA, UNITED STATES, August 29, 2024 /EINPresswire.com/ -- As arthritis continues to affect millions of Americans, with prevalence projected to skyrocket in the coming decades, the Arthritis National Research Foundation (ANRF) is proud to announce the return of its popular

[Researcher Spotlight Series](#). This fall, join us for a unique opportunity to connect with top researchers and clinicians as they share the latest insights on symptoms, management, and the groundbreaking research driving us closer to a cure for arthritis and autoimmune diseases.

“

As the prevalence of arthritis continues to rise, it's more important than ever to stay informed about the latest advancements in research, treatment, and management.”

ANRF CEO Emily Stormoen

Arthritis is more than just a diagnosis; it's a daily challenge for over 54 million adults in the U.S. With numbers expected to soar to 78 million by 2040, it's clear that more support, resources, and understanding are needed. Whether you're living with arthritis or supporting a loved one, staying informed about the latest research, treatment options, and management strategies is crucial. The Researcher Spotlight Series is tailored for patients and caregivers, bridging the gap between innovative research and the arthritis community.

ANRF CEO Emily Stormoen shares, “We're thrilled to bring back the Researcher Spotlight Series, offering an incredible opportunity to connect with leading experts in the field. As the prevalence of arthritis continues to rise, it's more important than ever to stay informed about the latest advancements in research, treatment, and management.
