FormAssembly Named Leading Provider of eForm Solutions by Industry Analysts

FormAssembly's no-code digital form solution earned high ratings in several categories including Business Value, Security, Workflow, and Integrations

BLOOMINGTON, INDIANA, UNITED STATES, September 4, 2024 /EINPresswire.com/ -- FormAssembly, a leading provider of web forms and data collection solutions, today announced it has been named a Leader in the 2024 eForms Data Quadrant Report. The report, published by Software Reviews, a

FormAssembly Form Builder Named Software Reviews Industry Leader

division of Info-Tech Research, evaluated offerings from 14 technology providers to inform buyers of digital form solutions. FormAssembly received high ratings in 18 categories, including Business Value, Security, Workflow, Integrations, Customization, and Feature Quality.

> FormAssembly is easy to use, has a great UI, and offers a wide selection of templates. I love being able to create forms and integrate them with Salesforce without needing a developer."
>
> *Prabhavathi Janaswami, Salesforce Administrator at Niagara College Canada*

"We're honored to be recognized as a leader in our industry, particularly because this award is driven by customer feedback," said Cedric Savarese, CEO and Founder of FormAssembly. "Our team is committed to providing top-notch form solutions and helping our customers manage their data effectively and responsibly. This validation from our users truly reinforces our mission."
