

Global Rainscreen Cladding Market Size, Share And Growth Analysis For 2024-2033

*The Business Research Company's
Rainscreen Cladding Global Market
Report 2024 – Market Size, Trends, And
Market Forecast 2024-2033*

LONDON, GREATER LONDON, UK,
September 11, 2024 /

EINPresswire.com/ -- The global
rainscreen cladding market has

experienced significant growth in

recent years, expanding from \$14.36 billion in 2023 to \$15.45 billion in 2024, at a compound annual growth rate (CAGR) of 7.6%. This growth can be attributed to the booming construction and architectural sectors, increasing demand for energy-efficient building solutions, and the expansion of sustainable and green construction practices. It will grow to \$21.67 billion in 2028

at a compound annual growth rate (CAGR) of 8.8%.

Additionally, regulatory standards for building safety and the growing adoption of rainscreen systems for moisture protection have further fueled market expansion.

Rainscreen Cladding Market to Grow as Residential and
Non-Residential Construction Increases

The increase in residential and non-residential

construction is expected to drive the growth of the rainscreen cladding market in the coming years. Rainscreen cladding, known for its durability and aesthetic enhancement of buildings, also offers protection against excessive heat. For instance, according to the U.S. Census Bureau, construction spending rose from \$1,618.8 billion in October 2021 to \$1,625.9 billion in November 2021, highlighting the ongoing construction boom. As a result, the demand for rainscreen cladding in both residential and non-residential construction projects is on the rise.

Rainscreen Cladding Global Market Report 2024 –
Market Size, Trends, And Market Forecast 2024-2033

Major companies in the rainscreen cladding market include Kingspan Group, SIKA AG, ROCKWOOL International A/S, Everest Industries Limited, and SFS Holding AG. These companies are at the forefront of innovation, developing new products to maintain a competitive edge. For example, in October 2021, Fiberon, a UK-based manufacturer of composite and PVC decking, railing, and fencing products, introduced a new composite cladding for rainscreen applications. This product combines the beauty and warmth of wood with the durability of low-maintenance, high-performance composite materials.

Segments:

- Material: Metal, Fiber Cement, Composite Materials, Other Materials
- Construction: New Construction, Renovation
- End-User: Non-Residential, Residential

Geographical Insights: Europe Leading the Market

Europe was the largest region in the rainscreen cladding market in 2023, driven by a strong construction sector and stringent building regulations that promote the use of rainscreen systems. The region's focus on sustainable construction and energy-efficient buildings also contributes to its leadership in the market.
