Surging Demand for High-Value Crops Fuels Growth in the Nematicides Market

The increasing demand for high-value crops is a key driver of growth in the nematicides market. High-value crops such as vegetables, potatoes, hybrid maize, fruits, and spices are critical for farmers seeking better returns per hectare. Specific export requirements for these crops

necessitate effective nematode control. According to The Economic Times, vegetable export demand surged by approximately 20% in the first quarter of 2020-21 compared to pre-COVID levels. Additionally, Vegetable Growers Weekly reported \$7.1 billion in sales for fresh produce in May 2021, highlighting the growing market for high-value crops and, consequently, the nematicides used to protect them.

Key Players and Market Trends

Leading companies in the nematicides market include Adama Agricultural Solutions Ltd., BASF SE, Bayer Crop Science AG, Certis L.L.C, Corteva Inc., and Syngenta AG. Technological

advancements are a major trend, with companies like Syngenta introducing innovative solutions such as the TYMIRIUM technology platform. This platform, developed for seed and soil applications, offers long-term protection against a broad range of nematode pests.

Trends Shaping the Market

Key trends in the nematicides market include the rise of sustainable agriculture certification, the development of biological nematicides, and increased research and innovation. Data-driven decision-making is also becoming crucial as the industry adapts to climate change impacts and explores alternative pest control methods.

Segments:

- By Type: Fumigants, Bio Nematicides, Organophosphates, Carbamates, Other Types
- By Form: Granular or Powder, Liquid
- By Crop Type: Fruits and Vegetables, Oilseeds, Cereals and Grains, Other Crop Types
- By Application: Fumigation, Soil Dressing, Drenching, Seed Treatment, Other Applications

Geographical Insights: North America Leading The Market

In 2023, North America leading the nematicides market. Looking ahead, Asia-Pacific is expected to be the fastest-growing region due to increasing agricultural activities and demand for high-value crops.
