Asia-Pacific was the largest region in the set top box market in 2023. The regions covered in the set-top box market report include Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East and Africa.

Set-Top Box Market Definition

A set-top box is a hardware device that receives, decodes, and displays digital signals on a television. The signal, which might be either television or Internet data, is received by cable or telephone. The set-top box might deliver more channels than the television's native channel numbering system and choose the channel a user wanted to watch from a slew of signals that included data for a variety of channels. It is used for TV sets to receive and decode digital television (DTV) broadcasts and are also used for the conversion of analog television sets to receive digital broadcasts.

[Set-Top Box Global Market Report 2024](#) from The Business Research Company covers the following information:
