Recovery Solutions, specialists in [Advanced Liquid Product Recovery \(Pigging\) Technology](#) have been shortlisted as a regional finalist for the Business Growth and Strategy category at the prestigious [Make UK Manufacturing Awards](#) for the Midlands & East region.

Being shortlisted for the Business Growth and Strategy Award is a great achievement for HPS. It's a testament to our team's hard work and dedication....."

*Peter Elgar*

The Business Growth and Strategy Award recognises companies that demonstrate outstanding growth and a well-executed strategic vision that drives business expansion and market leadership.

HPS earns this recognition through its continuous focus on expanding its international client portfolio, which has seen a significant increase in export trading.

The company has also made substantial adjustments to other aspects of its business such as marketing strategy and business operations and development.

Peter Elgar, Executive Chairman of HPS commented:

"Being shortlisted for the Business Growth and Strategy Award is a great achievement for HPS. It's a testament to our team's hard work and dedication to driving improvements and aligning our growth with our core values and long-term vision."

In recent years, HPS has experienced remarkable growth, driven by strategic initiatives that include expanding into new international markets, enhancing product offerings, and investing in advanced technology.

The company strengthens its relationships with customers, who process liquids or wet products

through pipelines, by providing tailored solutions that help them increase yields, reduce waste, and improve sustainability.

Additionally, HPS continuously improves its “pigging” technology, ensuring they remain at the forefront of the industry.

The winners of the Make UK Manufacturing Awards will be announced at a ceremony on Wednesday 30th October 2024, where HPS will join other leading companies from across the Midlands & East region to celebrate the achievements of the UK’s manufacturing sector.

“We are genuinely pleased to be nominated alongside so many outstanding companies,” adds Peter. “This nomination recognises our continued pursuit of excellence in all aspects of our business and dedication to solving our customers complex liquid processing challenges”
