

Zymöl Publishes Free Directions for Washing Electric and Hybrid Cars

These free directions solve the washing problem for Electric car owners.

BROOKSVILLE, FLORIDA, UNITED STATES, September 4, 2024 /EINPresswire.com/ -- The World is changing, Electric Cars are becoming the family transportation.

Maintaining this new technology requires education and [Zymöl](#) has available free directions for [safely washing](#) Electric Cars.

"A real problem for the owners of alternative powered vehicles is safely keeping them Clean." says Charles Bennett Zymöl's Founder and CEO.

The leader in Electric Vehicles is the Tesla company. Throughout the years

Tesla has used Zymöl to investigate and develop safe surface care for their beautiful machines but the old habits and learned misbehaviors of car owners dies hard.

A real problem for the owners of alternative powered vehicles is safely keeping them Clean"

Charles Bennett Zymöl CEO

Here are some excerpts from the published free directions at Zymöl's [Wash Your Electric Car Safely](#).

First Rule - NEVER drive an Electric or Hybrid car through a mechanical automated car wash. There are far too many ways a car can be damaged especially if owners are not familiar with entering their vehicle into a Car Wash or Free Roll mode. An example of a pre-wash must is locking the

Charge Port and making sure the automatic emergency brake is completely off.

Second Rule - NEVER apply hot Waxes or Hydrophobic coatings to the forward parts or glass on an Electric or Hybrid car that has Autopilot Sensors or Cameras. These automated car wash coatings will affect the ability of the system to operate properly and reduce its capability to 'see'.

Third Rule - ONLY wash an Electric or Hybrid car by hand. Carefully wash the car gently with a neutral pH, non-acidic soap (non detergent) to remove road soils and dirt. Detergents are often sodium salts of long chain alkyl-hydrogen sulphate. Not exactly what you want on beautiful paint and detergents damage rubber seals on windows and doors.

An absolutely free complete document with step by step directions of how to Wash Your Electric Car Safely is available on the Zymöl Factory Website.

Zymöl Profile

Zymöl (pronounced ZYE-mol) is the world's leading producer of premium automotive care products. Its effectiveness, natural ingredients, environmental compatibility and adoption by the automotive elite distinguish and separate Zymöl from the other less quality offerings.
