

New Leaf Detox and Treatment Inc. Launches Cocaine Rehabilitation Program

Laguna Niguel, California – New Leaf Detox and Treatment Inc., a highly rated rehab and addiction treatment center, is happy to announce the launch of its cocaine rehabilitation program and facility in Orange County, California.

The specialized treatment program and facility bring hope to individuals seeking to detox from cocaine. The dedicated treatment plan equips patients with the proper guidance and tools to achieve long-term sobriety.

“The repeated use of this powerful stimulant drug will cause long-term changes in the brain’s reward system as well as other structural modifications to the body,” said a spokesperson for New Leaf Detox and Treatment Inc. “The reward systems in the mind become accustomed to the additional amounts of dopamine released, which naturally causes the sensitivity to it to become less and less noticeable over time. This process results in people consistently wanting to take more extensive and more frequent doses of cocaine to be able to achieve the same high that they crave.”

Warning signs that a close friend or family member is using cocaine include:

Dilated Pupils

Insomnia

Increased sensitivity to bright light and loud noises

Paranoia

Blood pressure and body temperature increase

White powder sometimes visible around the nose

Mood swings

Moderate to severe depressive behaviors

Frequently showing little to no appetite

Random nosebleeds

Nausea

Restlessness

Frequent tremors or muscle twitches

Increased heart rate
