

Global Automotive Seat Heater Market Size, Share, And Growth Analysis For 2024-2033

The Business Research Company has updated its global market reports with latest data for 2024 and projections up to 2033

LONDON, GREATER LONDON , UNITED KINGDOM, September 4, 2024

[/Einpresswire.com/](https://www.einpresswire.com/) -- The automotive seat heater market has experienced

robust growth in recent years,

expanding from \$2.76 billion in 2023 to \$2.93 billion in 2024 at a compound annual growth rate (CAGR) of 5.9%. The growth in the historic period can be attributed to expansion of the automotive industry, high adoption of seat heaters in colder regions, rapid urbanization, increase in disposable income, and increasing traffic congestion.

[Growth Driver Of The Automotive Seat Heater Market](#)

The rising sales of electric vehicles are expected to propel the growth of the automotive seat heater market going forward. Electric vehicles (EVs) are vehicles that are powered by electric

motors, using energy stored in rechargeable batteries. The rising sales of electric vehicles are due to low maintenance costs, zero tailpipe emissions, attractive incentives, and the convenience of home charging. Automotive seat heaters enhance the driving experience by providing greater comfort, supporting energy conservation, and strengthening range and passenger comfort, making them a valuable feature for electric vehicles.
