

Baggage Scanner Global Market 2024 To Reach \$2.57 Billion By 2028 At Rate Of 5.6%

The Business Research Company has updated its global market reports with latest data for 2024 and projections up to 2033

LONDON, GREATER LONDON , UNITED KINGDOM, September 4, 2024

[/Einpresswire.com/](https://www.einpresswire.com/) -- The baggage scanner market has experienced

robust growth in recent years,

expanding from \$1.96 billion in 2023 to \$2.07 billion in 2024 at a compound annual growth rate (CAGR) of 5.5%. The growth in the historic period can be attributed to increasing global air travel, rising security concerns, regulatory mandates for airport security, a heightened threat of terrorism, and incidents of baggage theft and smuggling.

[Growth Driver Of The Baggage Scanner Market](#)

The growing number of terrorist attacks or terrorism is expected to propel the growth of the baggage scanner market going forward. Terrorism is defined as the use of violence, intimidation, or coercion for political, religious, or ideological purposes. Terrorism rates are on the rise owing to several factors, such as political instability, economic disparities, ideological extremism,

foreign interventions, media influence, ethnic tensions, technological advancements, and weapons proliferation. Baggage scanners are used to fight against terrorism by providing advanced technology for threat detection, enhancing security measures at various checkpoints, and contributing to overall public safety efforts worldwide.
