

# Adult Spinal Deformity Market Segments, Drivers, Restraints, And Trends For 2024-2033

*The Business Research Company's Adult Spinal Deformity Market Segments, Drivers, Restraints, And Trends For 2024-2033*

LONDON, GREATER LONDON, UNITED KINGDOM, September 5, 2024 /EINPresswire.com/ -- The adult spinal deformity market has experienced robust growth in recent years, expanding from \$2.28 billion in 2023 to \$2.42 billion in 2024 at a compound annual growth rate (CAGR) of 6.1%. The growth in the historic period can be attributed to an increasing aging population, advancements in surgical techniques, a growing prevalence of degenerative disc disease, rising awareness of spinal health, technological innovations, and improved healthcare infrastructure.

Adult Spinal Deformity Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033

What Is The Estimated Market Size Of The Global Adult Spinal Deformity Market And Its Annual Growth Rate?

It will grow from \$2.28 billion in 2023 to \$2.42 billion in 2024 at a compound annual growth rate (CAGR) of 6.1%."

*The Business Research Company*

The adult spinal deformity market is projected to continue its strong growth, reaching \$3.09 billion in 2028 at a compound annual growth rate (CAGR) of 6.2%. The growth in the forecast period can be attributed to an increasing incidence of spinal deformities, a surge in demand for specific devices, growing regional markets, rising awareness and early diagnosis, and a focus on complex deformities and degenerative conditions.

## Growth Driver Of The Adult Spinal Deformity Market

The rise in obesity rates is expected to propel the growth of the adult spinal deformity market going forward. Obesity rates refer to the prevalence or percentage of a population that is considered obese based on body mass index (BMI) measurements, which is generally defined as having a BMI of 30 or higher. Obesity rates are rising due to increased consumption of high-calorie, processed foods and sedentary lifestyles. Moreover, limited access to healthy foods and environmental factors also contribute to the trend. Adult spinal deformity solutions are increasingly utilized in obese patients to address the heightened mechanical stress on the spine and mitigate the risk and progression of spinal deformities associated with obesity.

## Which Market Players Are Steering The Adult Spinal Deformity Market Growth?

Key players in the adult spinal deformity market include Abbott Laboratories, Medtronic plc, Johnson & Johnson MedTech, Stryker Corporation, Boston Scientific Corporation, B Braun Melsungen AG.

## What Are The Key Trends That Influence Adult Spinal Deformity Market Share And Analysis?

Major companies operating in the adult spinal deformity market are focusing on the development of patient-specific solutions, such as implant technologies, to categorize and assess congenital anomalies of the upper limb, particularly hand and wrist deformities. Spinal deformity devices incorporate advanced implant technologies such as titanium alloys and polymer composites to enhance structural support and facilitate corrective procedures.

## How Is The Global Adult Spinal Deformity Market Segmented?

- 1) By Type: Scoliosis, Kyphosis, Lordosis
- 2) By Product Type: Cervical Fixation Devices, Interbody Fusion Devices, Thoracolumbar Devices, Other Product Types
- 3) By Procedure: Spinal Fusion Surgery, Osteotomy, Spinal Deformity Correction, Spinal Arthrodesis, Spinal Fixation, Minimally Invasive Spinal Surgeries, Other Procedures
- 4) By Application: Hospitals And Clinics, Ambulatory Surgical Centers, Other Applications

## Geographical Insights: North America Leading The Adult Spinal Deformity Market

North America was the largest region in the adult spinal deformity market in 2023. Asia-Pacific is expected to be the fastest-growing region in the forecast period. The regions covered in the adult spinal deformity market report are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, Africa.

## Adult Spinal Deformity Market Definition

Adult spinal deformity is an abnormal curvature of the spine that develops or persists in

adulthood, such as scoliosis (sideways curve), kyphosis (rounded back), or lordosis (excessive lower back curve). It can cause pain and functional issues and may require treatment through physical therapy, medication, or surgery.

Adult Spinal Deformity Global Market Report 2024 from TBRC covers the following information:

- Market size data for the forecast period: Historical and Future
- Macroeconomic factors affecting the market in the short and long run
- Analysis of the macro and micro economic factors that have affected the market in the past five years
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

An overview of the global adult spinal deformity market report covering trends, opportunities, strategies, and more

The Adult Spinal Deformity Global Market Report 2024 by [The Business Research Company](#) is the most comprehensive report that provides insights on [adult spinal deformity market size](#), adult spinal deformity market drivers and trends, adult spinal deformity market major players, adult spinal deformity competitors' revenues, adult spinal deformity market positioning, and adult spinal deformity market growth across geographies. The adult spinal deformity market report helps you gain in-depth insights into opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.
