“

As a trial lawyer committed to advocating for the rights of individuals, it's crucial that we stay ahead of the curve on how HB 837 is shaping the legal landscape in Florida”

Brent Steinberg

The series comes in response to the significant changes brought about by the HB 837 legislation, signed into law on March 24, 2023. This legislation has been described as one of the most substantial rights-restricting measures in recent history, profoundly limiting Floridians' ability to hold wrongdoers accountable while favoring the interests of large insurance companies.

Mr. Steinberg, who has been closely monitoring the impact of HB 837, will provide valuable insights into how insurance companies have adjusted their claims handling processes,

the defensive strategies employed by their attorneys, and the varying approaches Florida courts have taken in interpreting this legislation.

“As a trial lawyer committed to advocating for the rights of individuals, it's crucial that we stay ahead of the curve on how HB 837 is shaping the legal landscape in Florida,” said Brent

Steinberg. "This webinar series is designed to equip attorneys with the knowledge and tools they need to effectively navigate these changes and continue to advocate powerfully for their clients."

The HB 837 Update webinar series is designed for members of the Florida Justice Association, who are committed to advocating for the rights of citizens injured due to negligence. Attendees are expected to earn 3 general Continuing Legal Education (CLE) credits, pending approval. Details will be provided in registrants' online classrooms once confirmed by The Florida Bar. Attorneys interested in participating are encouraged to visit the FJA website for more information and to register for this essential webinar series.
