

Digital Beachhead Launches Affordable Cybersecurity Solutions for Small Businesses

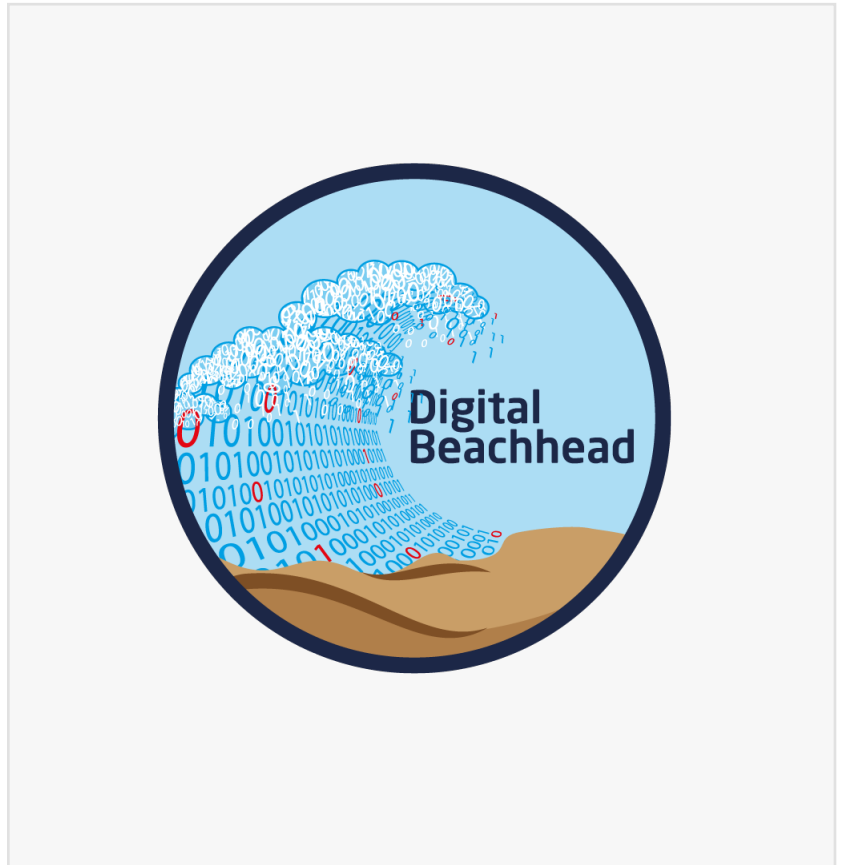

Cybersecurity Solutions for UNDER \$1 a day per user! 24/7 monitoring, user training and sensitive data protections!

COLORADO SPRINGS, CO, UNITED STATES, September 5, 2024 /EINPresswire.com/ -- [Digital Beachhead](#), a leading cybersecurity company, has announced the launch of their new [affordable](#) cybersecurity solutions specifically designed for small businesses. The company aims to provide comprehensive protection for small businesses against cyber threats, without breaking the bank.

The solutions offered by Digital Beachhead include Cyber Awareness Training, 24/7 Security Operations Center monitoring of email, devices, and sensitive data, and a zero trust network connection to protect systems no matter where they are connected. All of this is available for under [\\$1 a day](#) per user, making it an affordable option for small businesses looking to enhance their cybersecurity measures.

According to recent studies, small businesses are increasingly becoming targets for cyber attacks due to their lack of proper security measures. This can result in significant financial losses and damage to their reputation. Digital Beachhead's affordable solutions aim to bridge this gap and provide small businesses with the necessary protection to safeguard their sensitive data and systems.

"We understand the challenges faced by small businesses in today's digital landscape, and we are committed to providing them with affordable and effective cybersecurity solutions," said Michael "Mike" Crandall, CEO of Digital Beachhead. "Our Cyber Awareness Training and 24/7 monitoring services, coupled with our zero trust network connection, will give small businesses
