

# Metropolitan Shuttle Introduces Group Transportation Service to Colorado's Top Ski Resorts

DENVER, CO, UNITED STATES, September 4, 2024

/EINPresswire.com/ -- [Metropolitan Shuttle](#) has announced the launch of a new group transportation service connecting Denver with several of Colorado's premier ski resorts. This service is designed to provide convenient and comfortable travel for groups heading to popular destinations such as Vail, Breckenridge, Aspen, Copper Mountain, and Crested Butte.

With winter approaching, many travelers are preparing for trips to Colorado's renowned ski areas. However, the journey from Denver to these resorts can be challenging due to mountainous terrain and winter weather conditions. Metropolitan Shuttle's new service aims to simplify this process by offering a reliable and stress-free transportation option.

The new service features a range of vehicles including minibuses and charter buses. These buses are equipped with amenities such as comfortable seating, Wi-Fi, and ample storage for ski equipment. The goal is to provide a comfortable ride while allowing groups of passengers to enjoy the scenic views of the Rockies.

Safety is a key component of the service. Metropolitan Shuttle hires professional drivers who are experienced in handling winter road conditions and are familiar with the routes to Colorado's ski resorts. This ensures that groups arrive safely and on schedule.

The service is intended for various types of groups, including family vacations, corporate retreats, and group outings. Flexible scheduling options are available to accommodate different travel needs, whether for short weekend trips or extended ski vacations.

"Providing a seamless travel experience from Denver to the ski resorts aligns with our commitment to delivering reliable and comfortable group transportation," said Glenn Orloff, CEO of Metropolitan Shuttle. "We aim to make the journey as enjoyable as the destination."

As the ski season gets underway, Metropolitan Shuttle encourages travelers to book their
