The demand for bathtubs in the bathtub market is driven by the expansion of hospitality industry. The desire for

travelling is rising by the influence of social media; thereby, increasing the number of travelers globally. Moreover, with rise in number of travelers the service demand for hospitality is rising, which is driving the key players in providing best services at minimum cost. Therefore, the hospitality industry is installing the bathtubs with the facility of spa and skin care for relaxation and comfort to provide better facilities to its customers. Thus, growing hospitality industry is driving the demand for both basic and luxurious bathtubs globally.

The bathtub market is segmented on the basis of type, material, end user, distribution channel, and region. Based on type, the global market is divided into free-standing tubs, alcove tubs, drop-in tubs, and corner tubs. On the basis of material, it is divided into marble, acrylic, ceramic, and others. On the basis of end user, the market is bifurcated into residential and commercial. By distribution channel, it is bifurcated into offline and online. Region wise, the global market is studied across North America, Europe, Asia-Pacific, and LAMEA. North America consists of the U.S., Canada, and Mexico. Europe is studied across the UK, Germany, France, Italy, Spain, and the rest of Europe. India, China, Japan, ASEAN, Australia, and the rest of Asia-Pacific are the countries analyzed under Asia-Pacific, while LAMEA includes Brazil, Argentina, Saudi Arabia, South Africa, and rest of LAMEA.

Bathtub's ability to provide mind and body relaxation, many benefits associated with it, and its efficiency for body inflammation of the patients suffering from arthritis fuel the growth of the global bathtub market. By material, the ceramic segment generated the highest share in 2019. By region, on the other hand, the market across Asia-Pacific would portray at the fastest CAGR of 6.7% by 2027.

By material, the ceramic segment generated the highest share in 2019, accounting for more than one-third of the global bathtub market, and is projected to dominate during the forecast period. Simultaneously, the acrylic segment is anticipated to cite the fastest CAGR of 5.5% from 2021 to 2027.

One of the key factors that restrains the demand for bathtubs in the bathtub market is the lack of space availability in the households, as most of the developing countries face issues regarding the space and installing a bathtub. Furthermore, the average size of the small bathroom is 3m x 2m, which is not enough to install a bathtub. Moreover, the traditional bathrooms are also preoccupied with other sanitary wares and adjusting a bathtub into it makes it more congested.
