

Global Gaming Data Launches City Specific Sports Data Platform With Integrated Sports Betting

City specific sports data widgets, with available online sports betting, can be licensed by online media groups through Global Gaming Data.

TAMPA, FL, UNITED STATES, September 5, 2024 /EINPresswire.com/ -- Global Gaming Data, LLC, a Florida based technology company, is pleased to announce the launch of their city specific sports data widgets. These sports data widgets are specific to professional and college sports teams affiliated with all major U.S. cities. These city specific sports data widgets can easily integrate into digital publisher web sites, or be delivered through XML feeds. The sports data widgets are available in English and Spanish and allow digital publishers to integrate localized sports platforms to their online / mobile properties in a seamless manner.

Below are some example links for city specific sports data specific to [Boston](#), [New York](#), [Los Angeles](#), Chicago and Las Vegas. This full city by city platform will roll out for all major U.S. markets in Q4, 2024.

Boston

Las Vegas

<https://sportsdatalive.com/las-vegas/>

Approved Digital publishers can opt to have online sports betting integrated into the city specific sports widgets, allowing media partners to earn revenue from online sports betting in approved states.

"Our sports data catalogue covers virtually all sports around the world, to include the NFL, NBA, MLB, NHL, MLS, NASCAR, F1, and all major NCAA sports as well as

international sports including over 600 soccer leagues from around the globe", said John Brier, Global Gaming Data's Managing Partner. "We are excited to offer our media partners city specific sports data widgets that are comprehensive, affordable, and that offer the option of revenue generation through online sports betting integration where approved," added Brier.

Global Gaming Data offers content across an array of digital publishers including newspapers, sports books, television stations, portals, app builders, and digital device manufacturers allowing for the ability to deliver live in game scoring, scores, standings, schedules, odds, injury reports, television broadcasting schedules, box scores, stats and more to their audiences. More information on Global Gaming Data's sports information products and licensing can be found at www.SportsDataLive.com.

The management team at Global Gaming Data has over two-decades in the digital data licensing space and has built and licensed data products deployed against wide distribution by consumers around the globe with over 4 billion instances.

Interested digital publishers can reach out to Jim.Schonewolf@GlobalGamingData.com. For Canadian inquiries digital publishers can reach out to Lee.Eckley@GlobalGamingData.com
