

MELTRIC® to Exhibit Reliable Electrical Connection Solutions at MINExpo 2024

MELTRIC will exhibit at MINExpo 2024, September 24 - 26, 2024. Booth 11138 in the Las Vegas Convention Center.

FRANKLIN, WI, UNITED STATES,
September 24, 2024 /
EINPresswire.com/ -- MELTRIC, a

leading provider of innovative electrical connection solutions, is excited to announce its participation in MINExpo 2024, from September 24 - 26, 2024. The company will showcase its groundbreaking Switch-Rated plugs and receptacles at booth 11138 in the Las Vegas Convention Center. (<https://meltric.com/solutions/mining-aggregate>)

MELTRIC's Switch-Rated connectors offer mining operations a superior electrical connection solution, combining the safety and efficiency of a disconnect switch with the convenience of a plug and receptacle. These devices feature line-of-sight disconnect, arc flash containment, push-button disconnection, and a dead-front safety shutter—making them an ideal upgrade for traditional disconnect switches and pin-and-sleeve devices.

MELTRIC electrical connections are known for their reliability and rugged durability, these devices can withstand a wide range of environmental conditions, including dust and water intrusion, impact ratings, and spring-loaded, self-cleaning, silver-nickel butt-style contacts that resist welding.

Beyond their innovative Switch-Rated line, MELTRIC® manufactures a full line of industrial plugs and receptacles to meet the diverse needs of the mining industry. Their product portfolio includes multipin connectors for complex connections, high amperage solutions for heavy-duty equipment, single pole devices for simple circuits, and options specifically designed for hazardous locations. For a complete overview of MELTRIC's offerings, visit their website at <https://meltric.com>.

At MINExpo, MELTRIC will provide live demonstrations of its Switch-Rated connectors, allowing attendees to see firsthand how these products can enhance safety and productivity in their mining operations. Additionally, MELTRIC is offering customers the unique opportunity to try a device before they buy, ensuring they can make an informed decision about their electrical

connection needs.
