

# Xcede Group Expands Horizons with Exciting London Office Relocation

LONDON, GREATER LONDON, UNITED KINGDOM, September 23, 2024 /EINPresswire.com/ -- [Xcede](#) has announced the relocation of its London office to 24 Eversholt Street, London, NW1 1AD. This move is a key component of the company's strategic expansion plan, reflecting its ongoing commitment to enhancing operational efficiency and improving client interactions.

The new location represents a significant advancement in Xcede's ability to provide specialised recruitment services. The relocation is designed to support the company's growth trajectory by offering a more spacious and strategically positioned environment, which will facilitate more effective operations and enhance the experience for both staff and clients.

As a recruitment firm specialising in Data and Technology sectors, Xcede delivers flexible talent solutions across a range of fields, including data science, artificial intelligence, machine learning, software development, cloud computing, and cybersecurity. The new office will bolster Xcede's ability to connect top-tier professionals with leading organisations on a global scale, thereby reinforcing its role in the recruitment industry.

“

We're excited to move to our new London office, marking a new chapter for Xcede, enhancing client service, innovation, and collaboration.”

*said Adam Blaney, Global Managing Director at Xcede*

The move aligns with Xcede's strategic goals to expand its operational capacity and better serve its international client base. The upgraded facilities will support a variety of recruitment services offered by Xcede, including interim consulting, outsourced recruitment projects, permanent talent acquisition, and executive appointments.

This strategic relocation marks a pivotal moment for Xcede as it continues to adapt and grow in response to the evolving needs of the technology sector. The new office space is expected to enhance the company's ability to deliver tailored recruitment solutions effectively.
