

# TransCrypts & Nvidia Join Forces to Accelerate Castello AI

*TransCrypt Solutions Inc. Joins NVIDIA Inception Program to Accelerate AI Innovation for Castello AI*

FREMONT, CA, UNITED STATES, September 9, 2024 /EINPresswire.com/ -- TransCrypt Solutions Inc., a leader in blockchain-based data verification solutions, is thrilled to announce that it has been accepted into the prestigious NVIDIA Inception Program for startups. This acceptance marks a significant milestone for TransCrypts' flagship AI-driven financial analytics platform, Castello AI, which is poised to revolutionize how institutions interact with financial data.

The NVIDIA Inception Program is a renowned accelerator designed to nurture cutting-edge startups in the fields of artificial intelligence, machine learning, and data science. The program provides access to invaluable resources such as GPU technology, deep learning expertise, and go-to-market support.

With thousands of participants worldwide, being part of the Inception Program represents an endorsement from NVIDIA, one of the world's most recognized names in AI hardware and software innovation.

"Joining the NVIDIA Inception Program is a monumental step forward for our company," said Zain Zaidi, CEO of TransCrypt Solutions. "This collaboration not only validates Castello AI as a disruptive force in the financial AI landscape but also provides us with unparalleled access to NVIDIA's ecosystem. Leveraging NVIDIA's cutting-edge technology and resources will significantly enhance Castello AI's capabilities, allowing us to scale faster and deliver even more precise insights to our customers."

## Benefits of the NVIDIA Inception Program for Castello AI

Through the Inception Program, TransCrypts will gain:

-Access to NVIDIA's GPU Technology: Castello AI will be optimized using NVIDIA's state-of-the-art GPUs, driving faster data processing and more accurate financial analysis.

-Expertise in Deep Learning and AI: NVIDIA's support will help TransCrypts fine-tune its AI models, accelerating the development of Castello AI's proprietary algorithms, which are designed specifically for financial data analysis.

-Networking and Go-to-Market Support: As part of the program, TransCrypts will have the opportunity to collaborate with other cutting-edge startups and industry leaders, amplifying its presence in the AI and financial sectors.

## A Game-Changer for TransCrypt Solutions

Being recognized by a global AI leader like NVIDIA not only brings credibility to Castello AI but also opens doors to potential collaborations, partnerships, and future investments. This collaboration further cements TransCrypts' position as a fast-growing player in the intersection of AI, blockchain, and finance.

"We are honored to be part of the NVIDIA Inception Program," said Ali Zaheer, CTO of TransCrypt Solutions. "The program's endorsement enhances our ability to break down data silos, deliver real-time insights, and empower financial institutions to make better data-driven decisions. With NVIDIA's resources, we are ready to push the boundaries of what AI can do in the financial world."

## About Castello AI

Castello AI is TransCrypts' AI-powered financial analytics platform that harnesses billions of data points from verified sources to deliver dynamic financial insights. Castello AI's unique capabilities in natural language processing (NLP) and financial data analysis allow institutions to break data silos, expand their decision-making knowledge base, and improve operational efficiency. Trusted by financial institutions globally, Castello AI is set to lead the future of AI-driven financial analysis.

## About NVIDIA Inception

NVIDIA Inception is a virtual accelerator program that helps startups during critical stages of product development, prototyping, and deployment. NVIDIA Inception supports more than 9,000 startups worldwide by providing cutting-edge technology, industry expertise, and marketing

exposure to innovative startups working across industries.
