

Pasture Seeds Global Market 2024 To Reach \$19.55 Billion By 2028 At Rate Of 7.7%

The Business Research Company has updated its global market reports with latest data for 2024 and projections up to 2033

LONDON, GREATER LONDON , UNITED KINGDOM, September 9, 2024

/EINPresswire.com/ -- The pasture

seeds market has experienced robust growth in recent years, expanding from

\$13.50 billion in 2023 to \$14.52 billion in 2024 at a compound annual growth rate (CAGR) of 7.6%. The growth in the historic period can be attributed to an increase in the domestication of aquatic livestock, rising consumption of dairy products, the evolution of pasture seed varieties, a rise in animal nutrition, and increasing pasture-based farming.

Pasture Seeds Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033

and animal-friendly farming methods without synthetic pesticides, fertilizers, or genetically modified organisms (GMOs). The increasing preference for organic products is driven by consumer concerns about health, environmental sustainability, and food safety. Pasture seeds are used in organic farming to grow nutritious, chemical-free forage for livestock, supporting sustainable and health-conscious agricultural practices.
